Superior Panels

Master Wall Inc.®
Building a Culture of Excellence

Master Wall® Superior Panels offer project specific, customizable solutions for each project. Superior Panels are constructed off-site in an indoor climate so weather and other environmental delays don't affect the construction schedule. With nearly endless finish options, each panel is constructed specifically for each project. Not only do superior panels offer time savings and customizable solutions, the systems are tested, code-approved assemblies with decades of successful performance on millions of square feet.

- Ability to Fast-Track Projects with Superior Quality Control
- Manufactured Indoors No Weather Delays
- Site Prep During Panel Construction Reduces the Overall Construction Schedule
- Takes Advantage of Current Code-Approved Master Wall® Systems
- Ensures Quality-Controlled Workmanship
- Controlled Environment Ensures Adherence to Master Wall Inc.® Application Guidelines
- Variety of Finish Options including Wood Grain and CIFS® Brick

- Superior Fire, Acoustical and Thermal Performance
- Superior Long-Term Durability with Industry-Leading Warranty options
- Lightweight = Lower Structural Requirements
- Smaller Footings / Foundations
- Reduced Jobsite Labor & Crew Sizes
- 10-Year Limited Warranty
